EXPERIENCE

University of California, San Diego, San Diego, CA

Jun 2023 – Aug 2023

Project Leader

- Lead and oversaw various project workflows and managed kanban boards within an agile work environment to maintain a steady work-pace
- Assisted project members in reviewing and providing feedback on their code during daily scrums
- Managed merge conflicts and merge pull requests from project collaborators within GitHub Project Repositories in order to maintain a stable, clean, and functioning application

PROJECTS

Feed Me

Jun 2023

- Collaborated with a team of 4 members to create a static website to provide recipes according to the user's dietary preferences
- Gained proficiency in interacting with third party APIs and data parsing
- Designed a sleek and seamless UI utilizing HTML, CSS, and JavaScript, Bulma used as a styling library

BallDontLie

Jul 2023

- Utilized MySQL, ExpressJS, Handlebars, and NodeJS to create a dynamic web application that would search and track basketball players and teams in the NBA
- Allowed users to create and login to an account to save player information and statistics, made possible with a MySQL Database

- Created a feature-rich web application that would react to user input

LEADERSHIP & COMMUNITY INVOLVEMENT

UCSD BootCamp Student Group, San Diego, CA

Apr 2023 – Present

Student Leader

- Created a social space to create a space to share information and news of web development, assistance in web app development, and communication in group projects
- Coordinated in-person study sessions to assist and program in a group setting
